| Project title:                                    | <b>Effective rendering of 3D objects using Gaussian Splatting in an Augmented Reality environment</b><br><br><b><i>Project is being carried out within the First Team FENG programme of the Foundation for Polish Science</i></b>                                                                                                                                                                                                              |
| Project description:                              | 3D object generation is currently one of the most important trends in computer graphics. Classical representations are relatively easy to render, while being difficult for generative machine learning models. A recent breakthrough in this area is the Neural Radiance Field (NeRF) and Gaussian Splatting (GS) models. The main goal of the research program is to create an augmented reality environment using neural rendering methods. |
| Key responsibilities include:                     | <ol style="list-style-type: none"><li>1. Planning and conducting computational experiments on neural rendering models like Gaussian Splatting;</li><li>2. Implementing advanced neural rendering methodologies;</li><li>3. Searching public databases for compound annotations;</li><li>4. Analyzing and visualizing results;</li><li>5. Preparing manuscripts;</li><li>6. Presenting scientific data at international conferences.</li></ol>  |

## Personal data processing information for job applicants

According to Article 13 of the Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation – hereinafter GDPR), the Jagiellonian University informs that:

1. The Administrator of your personal data is the Jagiellonian University with its registered office in Gołębia 24, 31-007 Kraków, represented by the Rector of UJ.
2. The Jagiellonian University appointed the Data Protection Officer [www.iod.uj.edu.pl](http://www.iod.uj.edu.pl), Gołębia 24, 30-007 Kraków. The Officer can be contacted by email: [iod@uj.edu.pl](mailto:iod@uj.edu.pl) or at the telephone number 12 663 12 25.
3. Your personal data will be processed in order to:
  - a. conduct recruitment process for the position specified in the advertisement – as part of the legal obligation of the Administrator pursuant to Art. 6 (1) lit c of the GDPR in connection with the Polish Labour Code;
  - b. conduct recruitment process for the position specified in the advertisement based on your consent pursuant to Art. 6 (1) lit a of the GDPR – your consent is granted by the clear action of submitting your CV with the Administrator. The consent to the processing of personal data concerns data that you voluntarily provide as part of your CV, which do not result from Polish Labour Code.
4. The obligation to provide your personal data results from the law (it applies to personal data processed under Article 6 (1) lit c of the GDPR). Failure to provide your personal data will result in your inability to take part in the recruitment process. Submission of personal data processed on the basis of consent (Article 6 (1) lit a of the GDPR) is voluntary.
5. Your data will be processed during the recruitment period. In the event of not concluding the contract with you, your data will be deleted after the recruitment process.
6. You have the right of access to the content of your personal data, as well as the right to correct, delete, restrict processing, transfer, object to processing – on the terms and conditions set out in the GDPR.
7. If the processing is based on consent, you have the right to withdraw the consent at any time, which shall not affect the lawfulness of processing based on the consent given before the withdrawal. Withdrawal of consent to the processing of personal data can be sent by e-mail to: [sabina.batko-jakubiak@uj.edu.pl](mailto:sabina.batko-jakubiak@uj.edu.pl) or by post to the following address: Wydział Matematyki i Informatyki UJ, ul. Prof. S. Łojasiewicza 6, 30-348 Kraków, Poland, or you can withdraw your consent in person at Faculty of Mathematics and Computer Science of the JU, ul. Prof. S. Łojasiewicza 6, 30-348 Kraków, Poland.
8. Your personal data will not be subject to automated decision making or profiling.
9. You have the right to lodge a complaint with the Inspector General for the Protection of Personal Data, if you feel that the processing of your personal data violates the GDPR regulations.
